Hyderabad, Telangana, India • [nikhildzade@outlook.com](mailto:nikhilzade@outlook.com) • +91-7066720542 • [linkedin.com/in/nikhilzade](https://www.linkedin.com/in/nikhilzade)

EXECUTIVE SUMMARY

Business Analyst with 3 years of experience contributing to AI-enabled B2B SaaS product development and product management across healthcare and enterprise platforms. Experienced in Product Discovery, requirement gathering, feature prioritization, stakeholder management, Agile product delivery, and AI-assisted product development. Skilled in translating business problems into product requirements, writing User Stories, Epics, Acceptance Criteria, and collaborating with cross-functional engineering teams to deliver scalable digital products. Hands-on expertise with Figma, Miro, Jira, ChatGPT, GitHub Copilot, and Salesforce Einstein AI.

CORE SKILLS & METHODOLOGIES

- **Product Management & Analysis:** Product Discovery, PRD, BRD, FRD, User Stories, Epics, Acceptance Criteria, Roadmapping, Backlog Grooming, Feature Prioritization, MVP Scope Definition, Stakeholder Management.
- **AI Product Development:** Salesforce Einstein AI, ChatGPT, AI APIs, Prompt Engineering, AI Medical Record Chronology Extraction, Document Summarization Workflows, GitHub Copilot.
- **Agile & Scrum Methodologies:** Sprint Planning, Story Point Estimation, Backlog Refinement, Sprint Reviews, Retrospectives, Stakeholder Demos, User Acceptance Testing (UAT).
- **Tools & Platforms:** Salesforce, AWS S3, DocuSign, Figma, Miro, Jira, Trello, Confluence, Power BI, Advanced Excel, GitHub, AutoCAD.
- **Domain Expertise:** B2B SaaS Products, Healthcare SaaS (Clinical Trial Management Systems - CTMS, Med-Legal Collaboration), Multi-Tenant Enterprise HRMS & Payroll.

WORK EXPERIENCE & CAREER PURSUITS

Business Analyst

Mar 2025 – Present

Option Matrix InfoTech • Hyderabad, India

- Driving product definition and feature delivery for a Salesforce-based B2B Clinical Trial Management System (CTMS) for US healthcare organizations.
- Conduct Product Discovery sessions with healthcare stakeholders to identify business problems, define product vision, and prioritize high-impact features.
- Translate customer and business requirements into Product Requirement Documents (PRDs), BRDs, User Stories, Epics, Acceptance Criteria, and functional specifications.
- Partner with Product Owners, Engineering, QA, UI/UX designers, and client stakeholders throughout the complete product lifecycle.
- Define MVP scope, feature roadmaps, release planning, and sprint goals for multiple CTMS modules.
- Drive AI-assisted product development by architecting workflows powered by Salesforce Einstein AI, ChatGPT, and AI APIs for automated document summarization.
- Design business workflows for AWS S3 document repository management and DocuSign digital agreement e-signature integrations.
- Participate in Sprint Planning, Backlog Grooming, Story Refinement, and Sprint Reviews in an Agile Scrum environment.

Business Analyst

Jan 2023 – Jul 2024

Qloron Pvt. Ltd. (Sortboxs.com) • Hyderabad, India

- Contributed to end-to-end product planning and workflow design for Sortboxs (sortboxs.com) — an all-in-one multi-tenant HR & Business Management SaaS platform.
- Conducted Product Discovery sessions with enterprise HR and operations leaders to map pain points in disconnected tools and spreadsheet sprawl.
- Authored BRDs, FRDs, User Stories, Epics, and Acceptance Criteria across Complete HRMS, Automated Payroll, Attendance Tracking, Project Task Management, and Multi-Tenant RBAC modules.
- Designed wireframes and user journeys in Figma/Miro for Employee Self-Service and HR Admin Dashboards.
- Formulated calculation rules linking biometric attendance logs directly to automated compliant payroll processing.
- Collaborated with Engineering, QA, and UI teams throughout Agile Scrum development, backlog grooming, and UAT.

CAREER PURSUITS & EARLIER EXPERIENCE

Strategic Intern – Young Leaders Program (YLP)

Aug 2023 – Jan 2024

GGI Impact Lab • Remote

- Assisted in structured problem analysis, consulting-style documentation, and solution articulation across parallel client workstreams.
- Conducted secondary research, market benchmarking, and quantitative synthesis for strategic decision frameworks.
- Strengthened stakeholder communication, executive presentations, and cross-functional collaboration in a distributed team.

Personal Goal Pursuit | Career Break

Jan 2021 – Jan 2023

UPSC Civil Services Examination Preparation • New Delhi / Pune

- Dedicated 2 years towards full-time UPSC Civil Services Examination preparation, advancing to write 2 CSE Mains — a selective tier reached by only ~1% of 1.3M+ annual candidates.
- Gained deep analytical exposure across Governance, Public Policy, Macroeconomics, Ethics, and Science & Technology.
- Honed high-pressure decision resilience, structured critical thinking, research synthesis, and complex problem decomposition skills.

Civil Engineering Analyst

Jan 2019 – Jan 2021

Pachurkar & Associates • Pune, India

- Coordinated multi-stakeholder execution for a 12 km water pipeline and treatment infrastructure project for Shirdi International Airport.
- Liaised with Maharashtra Airport Development Company (MADC), Forest Dept., PWD, and municipal authorities.
- Prepared engineering estimates, AutoCAD diagrams, and progress dashboards using Excel and Power BI.

KEY PRODUCT INITIATIVES & CASE STUDIES

SIGNAL - datosX (Clinical Trial Management System - CTMS)

Salesforce • Healthcare CTMS • AI Workflows • HIPAA/GDPR

Led product definition for a Salesforce-based B2B CTMS platform connecting Sponsors, Clinical Sites, and Healthcare Orgs. Defined MVP scope, user journeys, Epics, User Stories, AI-enabled reporting workflows, and ensured compliance with HIPAA & GDPR.

Medical Life Care Solutions (MLCS) — Healthcare Med-Legal Platform

Med-Legal SaaS • AI Chronology • Actuarial Cost Modeling

Led Product Discovery and requirement engineering for a med-legal SaaS platform connecting attorneys and clinical evaluators. Designed AI medical record chronology extraction workflows and actuarial cost calculation engines for lifetime healthcare damage modeling.

Sortboxs — All-in-One HR & Business Management Platform

Multi-Tenant SaaS • HRMS • Automated Payroll • RBAC

Designed core workflows for an all-in-one SaaS platform unifying HRMS, Automated Payroll, Attendance, Project Task Management, and Lead CRM. Authored BRDs, FRDs, User Stories, and Multi-Tenant RBAC hierarchies.

EDUCATION & LANGUAGES

Bachelor of Engineering (B.E.) in Civil Engineering

2014 – 2018

Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, Maharashtra

Languages: English (Professional Working Proficiency), Hindi (Native)
